Subject: HSM Hierarchy Table

Good Afternoon Alice

I wanted to let you know that when going over documents the other day, I noticed that there was an error in the HSM Hierarchy Table in Rev. 3 of the QAPP. I took the time to fix the error, and have attached the correct, revised copy. Please discard the previous version of the HSM Hierarchy table in the QAPP, and replace it with this one.

Please let me know if there are any questions.

Thanks

Brian Mikucki
